

## **PUBLIC NOTICE VOLUNTARY REMEDIATION PROGRAM**

In accordance with the public participation requirements of 9 Virginia Administrative Code 20-160-120, the general public is hereby notified that the Town of Purcellville has requested a Certificate of Satisfactory Completion from the Virginia Department of Environmental Quality Voluntary Remediation Program for the completed assessment of environmental conditions at the Town of Purcellville's Maintenance Facility located at 785 20<sup>th</sup> Street in Purcellville, Virginia. Compounds detected in soil at the site include arsenic and mercury and in the groundwater methyl tert butyl ether (MTBE). With the proposed institutional controls that will be placed on the site, the assessment of risks indicate that the compounds detected in soil and groundwater at the site do not pose an unacceptable risk to human health or the environment.

Comments and questions from the general public are welcome, and may be submitted in writing to the Town of Purcellville through their representative Mr. John J. Eichenberger, P.E. of Faulkner & Flynn, Inc., 10 S. Jefferson Street, Suite 170, Roanoke, VA (540-985-9540).

Written comments will be accepted for 30 days following the publication date of this notice. Any comments received within the comment period will be considered and addressed in documentation provided to the Department of Environmental Quality.
